The Vibe were excellent! Other than their impressive musical skills shown in their profile videos, I booked this band because they came across as the most caring and attentive to my booking needs. I booked The Vibe for a surprise proposal and they reached out to ask how to 'appear', what cues to watch for and how I wanted it to all play out. They were so good with helping me plan it all out. On the day itself the band arrived early and got in to position. The music I requested was played perfectly and the proposal turned out exactly as I imagined. They are a wonderfully talented band and very friendly. Now on to the wedding! Thank you, you were excellent.

The Vibe Brass were exceptional. We booked them for our wedding day to accompany guests from walking from the Church to our reception venue (about a 10 minute walk through central London). When I say my guests have not stopped talking about how great they were - they literally haven't! They played through our confetti shot, during some photos and then on the way to our Reception. A musical interlude immediately after the ceremony is so much fun and gives a focus point for your guests, and I am so so thankful we booked The Vibe Brass - impeccable musicians, consummate professionals, excellent communicators during the booking process and above all exactly what we wished for for our wedding. If you're thinking about booking - do it now!

The Vibe were both excellent performers and easy to deal with. We had significant positive feedback from our attendees and would have no hesitation booking them again in future!

Don't hesitate and just book them. We had The Vibe provide music to entertain our guests from church to reception venue and it was outstanding. What would have been a challenge to sheepdog people though the streets of London became a carnival of love and music. Their freedom to roam without amplification is such an asset and their vibes were unmatched. We can't thank them enough. Everyone had the best time. My wife and I especially ❤️

A massive thank you to The Vibe for playing at our wedding reception. Everybody really enjoyed the music and it helped us forget the cold weather during confetti. You created the perfect atmosphere, really brought the vibe! The Vibe were a really special part of our winter wedding, playing during confetti and the drinks receptions both inside and out without overpowering. Emily was very easy to communicate with for any questions and requests. We felt confident to leave the finer details of set list to the band who matched the cosy yet joyful vibe that we wanted perfectly. Thank you!

*Some more about The Vibe at weddings* 

We had an amazing experience with The Vibe who I booked to perform at our work Christmas party. They performed a really great mix of music, really fun to watch perform, and got the whole room dancing. Communication with Emily in the run up to the event was great. They came early and were really prepared and did multiple sets over the space of 3hrs. Would highly recommend if you need a band that is going to bring THE VIBE to your party!
